

SCRABBLERS

(Updated December 22, 2019)

SCRABBLERS is a set of 150 laser-cut wooden tiles comprising two- and three-letter word fragments. Five game modes in one package as well as online:

Scrabble™ Add-On

Flip

Crosswords & Solitaire

GridLock

Components: The game comes with 150 laser-cut wooden tiles, each containing 2- or 3-letter word fragments called bigrams and trigrams. The most common bigrams and trigrams in the English language are included. A cardboard grid is included.

SOLITAIRE

Solo Goal: Make as many words as possible.

Solo Setup: Shuffle the tiles and place one random tile in front of you. Give yourself ten tiles face up.

Solo Game Play: One by one, take your tiles and form words with adjacent tiles. Words can be made in any direction, top to bottom and left to right. If you cannot place a tile, draw another tile and repeat.

FLIP

Flip Goal: Be the first to deplete ten tiles and hopefully get the top score.

Flip Setup: Shuffle the tiles and give each player ten tiles face up as their “hand”. Place the remaining tiles face down in a draw pile as the stockpile. Flip over three tiles.

Game Play: In turn, each player flips one hidden tile from the stockpile, placing it face up between all the players.

That player then attempts to form one or more words from one of his/her fragments and either the newly flipped fragment or any previously flipped letters. It is possible to make more than one word per turn. Note that you cannot make words solely from tiles in your hand.

If a word is made, the player calls it out, then flips that words tiles upside down. If possible, another word can be made before the turn ends. One minute max per turn.

If a word cannot be made, or for strategic reasons the player does not want to make a word, any other player can use that tile to make their word. First to call out a word grabs that tile to make the word.

An unused tile remains flipped up and can be used later.

Ending the Game: The game ends when one player has depleted ten tiles. Any tiles that are still face up are discarded. Each player then adds up the point values on all upside tiles. The player with the highest score wins. If there is a tie, the person with the alphabetically-highest fragment wins.

CROSSWORDS

Crossword Goal: Connect tiles into words. Be the highest scoring player to win.

Crossword Style Setup: Shuffle all the tiles and give each player seven tiles face up. Place one random tile between the players to start the game. All remaining tiles are

placed face down in a draw pile or bag. Designate a scorekeeper.

Crossword Style Game Play: Players take turns calling out their words and placing tiles adjacently to other tiles. Stacking is allowed. Score words as they are played.

Always maintain seven tiles.

Game End: Play until no more tiles can be dispensed and played, then determine the winner with the highest score.

GRIDLOCK

Goal: Collect and score words.

Setup: Place the 6x6 grid between the players and fill it with 36 random tiles. Give each player at least three tiles to maintain as their “hand”.

Game Play: In turn, each player gets a chance to make a word by combining two or more fragments from their hand with one or more in the grid. At least one tile will be stacked. Score the word made. If the player flips over the tiles in the new word, the word is locked, strategically to prevent an opponent from using letters to make another word. One minute maximum per turn.

Maintaining a Hand: Always maintain three tiles.

Game End: Play until no more tiles can be dispensed and played.

ONLINE SCRABBLERS

Visit our website www.SCRABBLERS.fun for more solitaire ways to challenge yourself including:

- **Print & Play:** fit available fragments into a partial crossword puzzle to form missing words
- **Roll & Write:** roll dice and select fragments to fit into a grid to make as many 4- and 6-letter words as possible.

SCRABBLE™ ADD-ON

Add some or all of the Scrabblers tiles as part of your Scrabble™ board game for extra points. Play with or without the original single letter tiles.
